

## THIRTEEN DIE IN EXPLOSION

Naptha Tanks Near Pittsburgh Blow Up, Causing Great Loss of Life,

## AND MANY INJURED

Another Disaster Is Feared From Gas Main Located Below The Wreckage

## GREAT FEAR IS FELT

(Special To Gazette.)  
Pittsburg, Penn., May 13.—Thirteen were killed and over three hundred persons injured in two explosions of naphtha tanks last night in the Panhandle yards at Corks Run. Many of the injured are in a serious condition today and are expected to die. The dead are James Keenan, Chas. Hearst, W. W. Taylor, Harry Smiley, Fennerty, G. H. Hunter, Walter Wright, Dallas Byrd, Pascal Mader, Donald Smith, George Wilson, Mathew Mannon and an unknown boy.

Another explosion is feared and a greater explosion than those that occurred yesterday may result as the possible disarrangement of several great thirty-six inch gas mains situated just below the wreckage caused by the naphtha explosion. If the gas forces it way through to the surface Monday's disaster may be more than duplicated.

The first explosion occurred in the Sheridan yards of the Panhandle Railroad, about five miles from the Union station, this city. Switchmen were shifting a train of cars, to which was attached two cars of refined oil and one of naphtha.

As the cars were kicked along the track the oil cars came together with a crash, smashing the couplings and breaking a switch light.

The oil tank was jarred and the oil flowed on the light. It ignited and made a trail to the tank. A flame shot into the air, and before the trainmen knew what had happened an explosion occurred. In a flash the burning oil spurted into the air.

This occurred about 4:15. An alarm was sent to Sheridanville and McKee's Rocks and the local fire department responded. No water could be had and the heat was so intense no one could get near enough to couple an engine onto the other two cars and haul them away.

About 5:15 the second car of refined oil exploded. By this time fully a thousand people had gathered on the hillside.

The Panhandle tracks lie in a valley flanked by steep hills on either side. No one thought of any danger. The heat from the burning cars generated gas in the naphtha tank near by. It had a gas dome and shortly after 6 o'clock the naphtha tank let go.

The dome shot into the air and fell on the hillside amidst the jam of spectators. The tank split in twain and the naphtha, like fiery serpents, shot in all directions, spraying the thousands of people, among whom were laborers, women and children and railroaders.

Immediately there was a rush for safety. Hundreds who were sprayed by burning oil tore their clothes off their bodies. Women were soon denuded, children screamed, men ran hither and thither like wild beasts. People set fire to each other. Some crawled in the dirt, others ran and fanned the flames with wind. Dozens of naked men beat their bodies among the bushes seeking to relieve the pain, others sank exhausted never to rise again.

The heat from the burning fluid, which had spread over to the valley, separated the parties occupying each hillside. A similar scene was being enacted on both hillsides, while down the valley none came out alive. The burning oil trickled into a small ditch known as Cork's Run. It floated past the village of Esplan and into the Ohio River. At the edge of Esplan and the Pittsburgh city limits a group of houses are situated along the hillside on the level. A natural gas main occupies a ditch. There was a leak in the gas main. As the burning oil reached it the gas main exploded, wrecking all houses in the group, killing several people and maiming about twenty more.

One building contained a large pool-room, in which were a dozen men. Some were killed and the rest injured. Thus at the two distinct places more than two miles apart lives were lost and help was needed.

By this time the railroad company had organized relief crews among their Pittsburgh yardmen. Every physician in the city was telephoned to lend his aid. Special trains were made up to take the doctors down in groups. Ambulances were put aboard flat cars and rushed down. Every hospital was ordered to get ready for an overflow, and rescue work was under way by 6:30 on a large scale.

As it was useless to pour water on the oil fire, it was allowed to burn.

Fay Grant, a 16 year old girl of Tuscola, Ill., committed suicide by the poison path, because her lover jilted her.

## REFUGEES BROUGHT TO FORT DE FRANCE

They Are in Pitiable Condition, Frightfully Burned, and in Need of Medical Care.

Fort de France, May 13.—The work of exploring the ruins of St. Pierre, of bringing away the refugees in the hills in the northern part of the island and of burning the bodies of the victims is progressing as rapidly as circumstances will permit.

Fort de France is crowded with refugees and food is already so scarce that alarm is felt that it will be exhausted before supplies can reach here.

They are all in a most pitiable condition. Hundreds of them are frightfully burned and in urgent need of medical care. All the doctors and nurses in Fort de France are working day and night among the injured and they are assisted by scores of volunteer nurses, many women of the wealthiest families of Fort de France giving their services.

The refugees, as a rule, had assembled at Le Carbet and Case Pilote, not far from St. Pierre, and, it is reported, over a thousand of them have died since the fearful stream of lava poured down Mont Pelee.

The sea for miles around was covered with the wreckage of the vessels sunk off St. Pierre at the time of the disaster, and ashore only a few trees, all bent seaward by the force of the volcanic shower, were left standing.

The fort and central quarter of the town were razed to the ground, and were replaced by beds of hot cinders. The iron grillwork gate of the government offices alone was standing. There was no trace of the streets. Huge heaps of smoking ashes were to be seen on all sides.

## ANOTHER SOUTH AMERICAN PANIC

Earthquake in Guatemala Destroys Three Thousand Lives—Volcano in Eruption.

New Orleans, May 13.—The steamer Ansel from Port Barrios, Guatemala, arrived here last night with additional reports of the Guatemalan earthquake which confirms the previous reports of the complete destruction of Quetzaltenango and other cities and estimates the total loss of life between twenty-five hundred and three thousand. It extended into Nicaragua; Montombo was partially destroyed. Mount Montombo on Lake Managua, an active volcano, has shown new signs of life and hot ashes are falling down its sides and the people are fleeing in their fright.

## STORM INFLUENCE FELT

Evansville Reports Heavy Rain and Much Electrical Display

Word was received this morning from Evansville stating that the storm was unusually violent in that section. Rain fell in torrents at times and the soil is thoroughly soaked.

The electrical display in the heavens was vivid and startling at times. The air seemed heavily charged with electricity, startling the citizens of that city almost to the point of fear. Lightning struck in several places and led a merry chase along the telephone wires. The central telephone exchange suffered to a considerable extent through the burning out of fuses and instruments.

The repair men of the line had a whole lot of business on hand this morning.

## ST. VINCENT LOSS MANY HUNDRED

St. Lucia Reports Say the Heat Is So Intense, Island Is Hard to Reach.

## LACK OF SUPPLIES

Cities Can Not Be Seen For Fog—Bay Is Filled With Debris.

## BURYING THE DEAD

London, May 13.—Sixteen hundred lives are known to be lost on St. Vincent island as a result of the eruption of La Soufriere, according to a cablegram received here this morning. On account of the continued flow of lava and the intense heat the stricken section cannot be penetrated. Refugees are arriving at St. Lucia say the loss of life will thus far exceed sixteen hundred. It is now a week since the eruption began and the tremendous explosions and the rumblings had not ceased when the cablegrams were sent from St. Lucia this morning. Many refugees have arrived in Dominica and in Cana. St. Vincent cannot be seen by the neighboring islands on account of the heavy fog. The sea is the vicinity is covered with trees and other debris swept from the island.

## POLEET CONFESSES KILLING ISAASON

Minister Held at Springfield Says He Was Overcome by Uncontrollable Desire to Slay.

Springfield, Ill., May 13.—John Poleet, the Baptist minister, who was arrested, charged with the murder of his traveling companion, Charles Isaason, confessed the murder in a letter which he wrote to his father-in-law, John Walker of Jerseyville. The confession was a surprise to even the officers who were working on the case, for the majority of them had come to believe in Poleet's innocence.

But for the efforts of Detective Frank Ryan it is likely that the man would have been released from custody immediately after his arrest, for his record as a man was above reproach, and the people at McClusky, where he was in charge of the Baptist mission, believe him incapable of such a crime and were protesting against his confinement.

Poleet's father-in-law came to Springfield to make arrangements for defending the suspect, and it was after he left that Poleet wrote the confession. He said that in a moment of frenzy, without any other provocation than an uncontrollable desire to slay, he struck down his companion and beat out his brains with a car coupler. He makes no attempt to defend himself and says he is unable to explain the deed, which is so foreign to his character, his teaching and his former life. He says he is ready to accept the consequences of his act, and declares that he still has faith in his religion and that he has been forgiven.

## WARDEN NOT TO RESIGN

McClaughey's Withdrawal From Waupun Denied by Board (Special To Gazette.)

Madison, Wis., May 13.—The report from Oshkosh that Warden McClaughey of the state prison has notified the state board of control that he will resign unless his salary is raised is wholly untrue according to Secretary Tappan of the board, who says that no word to that effect has been received by any member of the board. The report is credited to Flaherty, the disengaged deputy.

## UNDER WATER TEN MINUTES

Willie Schoonmacher Revives After Going Down The Third Time.

## A NARROW ESCAPE

Two Masons Stand On The Bridge and See Him Struggle, Without Aiding.

## FOUND IN THE WATER

That Willie Schoonmacher the seven-year-old son of Mr. and Mrs. John Schoonmacher, who reside in the Wilcox flats on East Milwaukee street, is alive today; is due to the prompt assistance and hard work rendered by a number of men and physicians. The little fellow seemed to be beyond all human help when taken from the river, but was finally resuscitated, after he had been under water almost ten minutes.

Yesterday afternoon about five o'clock little Willie and another boy were playing along the river bank at the rear of Dr. Wm. Horne's house on Park street. The bank is quite steep at this point and the water is fairly deep close to the shore. The little Schoonmacher boy was standing on the steep bank, throwing stones and sticks into the water. He stubbed his toe and fell down the bank into about three feet of water, where after making a few struggles he sank from sight.

Watched Him Drown  
Two masons standing on Court street bridge about twenty rods away, saw the boy fall into the water and never made a move toward rescuing him. They were still standing there looking down the river when Gus Heger and David Stewart came along from work. They inquired of the men what was up and were told that a boy just fell into the river in the rear of an outhouse on the bank. Heger and Stewart rushed down to where the men said the boy fell in and Heger saw the little body about six feet from the shore in about three feet of water. He jumped into the river and picked the little fellow up carried him onto the lawn in the rear of Dr. Horne's home.

Back to Life  
J. C. Roessling and Dr. Horne at once started to work on the little fellow to bring him back to life. They first forced the water out of his stomach and lungs. Then Dr. Horne by breathing into the little fellow's lungs maintained the spark of life that was fluttering there. A telephone message was sent for medical assistance and Drs. E. E. Loomis and E. H. Dudley responded. As soon as they arrived the boy was given hypodermic injections to stimulate the heart action and get up circulation. He was then wrapped in blankets and bathed with hot water. One doctor rubbed his extremities while the other bathed his body and worked his lungs to get up respiration.

Shows Signs of Life  
After about twenty minutes hard work the little fellow opened his eyes slightly and gave a little cry. This encouraged the doctors and they redoubled their efforts and in a short time longer he was pronounced out of danger. It was just forty-five minutes from the time he was taken from the river practically dead, to the time he was loaded into the patrol wagon and supposedly started for home, howling like an Indian.

Great credit is due the doctors and others that worked on the boy and to the neighbors who supplied hot water, blankets and stimulants. The funny part of the affair was, if it may be so-called, that it was not discovered who the child belonged to, until after he had been taken to a home other than that of his parents.

Parents Arrive  
When he was taken from the river it was said that he was Wallace Austin, the son of Mr. and Mrs. Alfred Austin, of Home Park avenue. They were notified of the accident and both hurried to the scene, saw the little fellow, and recognized him as their boy. They were assured he was coming on all right and Mrs. Austin left for home to prepare for his arrival. His father stood around and talked about the case, and stated his boys were out riding with the horse and buggy and he had no idea they would go near the river.

Not Their Boy  
When the patrol wagon arrived at the Austin home the little fellow was taken inside and put to bed. Mrs. Austin still thought it was her boy, but the grandmother looked at him and said that it was not their boy as their boy had short hair. After a little they were able to find out from the boy his name and where he lived and his mother was notified.

During all this time Mrs. Schoonmacher was wondering where her boy was. He had been playing around the building about half past four and as the time for supper approached and he did not appear she began to get worried. Later in the evening she applied to the police to find him. Her mind was relieved shortly afterwards by a message concerning the boy and stating that he was out of danger. He was kept at the Austin home over night and tenderly cared for and taken to his home this morning.

## CHARGES INSANE MAN WAS BRUTALLY BEATEN

Mrs. McHugh Claims Her Husband Was Maltreated by Jacksonville Asylum Attendants.

Bloomington, Ill., May 13.—Charges against the management of the Illinois insane asylum at Jacksonville have been filed by Mrs. Martin McHugh of this city. She alleges that her husband, a contracting painter of this city, has been brutally maltreated by the attendants there. She has just succeeded in having him transferred to the new state asylum at Bartonville, near Peoria. She declares she feared for his life if kept at the Jacksonville institution. When she visited her husband last month she found his face and head cut and bruised as if he had been hit with a club or kicked. She was assured the wounds were caused by a fall.

Later she paid him another visit and was at first refused admittance, her story being that the ground for action was the condition of her husband, due to a surgical operation. Her suspicions were aroused, and she informed the manager that she would lay the facts immediately before Governor Yates and secure from him an order for admittance. This threat had its effect, and she was shown into the presence of her husband. She says his condition was even more pitiable than on the occasion of her first visit. Both sides of his face were cut and bruised, there were serious gashes in his scalp, and a long sore spot was found on his foot. She was told that he had been bitten on the ankle by a bug, and that scratching caused the sore. She insists that her husband was scalded, causing a blister.

## WISCONSIN MEN AT WASHINGTON

With Dahle, Minor and Otjen Away, Badger Politics Are Quiet For A Time.

Washington, May 13.—With Representatives Dahle, Minor and Otjen, all in Wisconsin, and the absence for some time of any delegation from Wisconsin to induce Senator Spooner to "come out" there has been more dearth of excitement as to Wisconsin politics than we have had for some months. I do not believe that any man in Washington enjoys that sort of rest any more than Senator Spooner.

Mr. Babcock, who has now been at Atlantic City for ten days is reported to be making good headway toward recovering. He is not altogether idle, nor is he preparing to abdicate a chairman of the Republican congressional committee, for his appointments to the executive committee were announced last Wednesday through Mr. Overstreet of Indiana, who is one of the committee. Mrs. Babcock and Col. and Mrs. Casson accompanied Mr. Babcock to Atlantic City.

## CHICAGO FACES A GAS FAMINE

Workers In That Line Go On a Strike, and Refuse To Return.

## 20 HOURS' SUPPLY

By Careful Use, the Big City May Have Enough Left To Last 40 Hours.

## SIX HUNDRED MEN OUT

Chicago, May 13.—Six hundred gas workers struck here this morning. Every company in this city is affected. The present supply of gas in the tanks will last twenty hours, and by strict economy and by impressing the clerks and others of the office attaches into service it may be made to last forty hours. If the strike is not settled by that time it is likely that the gas consumers will be compelled to use lamps and candles. The strike was precipitated by the refusal of the companies to re-instate men discharged for asking permission to organize a union.

## LLOYD L. LESLIE NAMED

Governor Appoints Janesville Man a Member of State Board of Dental Examiners

Dr. L. L. Leslie has been busy today receiving congratulations from his professional and other friends upon his appointment as a member of the state board of dental examiners.

The appointment was made last evening by Gov. LaFollette. Dr. Leslie succeeds Dr. W. G. Oliver, of Oconto, and the appointment is for five years from May 2, 1902.

Dr. Lloyd L. Leslie is a graduate of the Vanderbilt University, in the dental class of 1894. He practiced in Darlington, Wis., until a little over two years ago when he came to this city, where he has worked up a fine practice and has merited and won the esteem of the profession and a large circle of friends.

The doctor went to Madison last evening where he was notified of his appointment, returning this evening.

## REFUGEES SUFFERING

Lack of Food Will Kill Many Before Outside Aid Arrives

Fort de France, May 13.—A great cloud still hangs over St. Pierre and the country for miles around. Every one who escaped death from eruption has fled toward Fort de France, leaving only the soldiers and others sent by the government to the scene. The work of burning the bodies is going on and outside help is quickly needed here. The town is filling up with refugees and the food supplies at hand are totally inadequate and terror of starvation confronts the sufferers. The heat is intense and the unhealthy season is at hand and an epidemic is feared. The food is being dealt out very cautiously because of the shortness of the supply. It is estimated that many will die of starvation and exposure before permanent relief can reach the island. The conditions caused by the decomposition of the bodies of the dead at St. Pierre are hourly becoming more unendurable.

## "FRUIT OF THE LOOM."

Men and women of taste and judgment go into ecstasies over the wonderful patterns, textures and colors which are the fruit of the loom. But there is one

they rarely consider, and that is the frail and faded woman, old before her time, because necessity compels her to work under conditions, which send her more favored sister to bed and the doctor's care.

The diseases which weaken and torment women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I had female trouble for eight years," writes Mrs. J. J. Dennis, of East College Street, Jacksonville, Ills. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I could lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pain, and such distress every month, but now I never have a pain—do all my own work and am a strong and healthy woman."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

## AMENDED STREET RAILWAY GRANT

COMMON COUNCIL FURNISHES A GRIST OF BUSINESS.

Appropriated \$150 for. Beautifying The Park — Heard Reports of City Officials — Confirmed Appointments — Talked of Bridges, and Voted for a Viaduct Over Tracks

The common council at its meeting last evening helped along the plan to beautify the parks by appropriating \$150 for this purpose. The amendment to the street railway ordinance was passed as was the ordinance relating to the Galena street viaduct.

Mayor Richardson presided at the meeting and all of the aldermen were present except Aldermen Judd and Lowell, who are out of the city.

The reading of the minutes was dispensed with. The reports of the city treasurer and the municipal court were referred to their proper committees and later placed on file.

The report of Marshall P. Richardson on the revision of the general ordinances with the exception of those referring, grades, names, and boundaries of streets was referred to the judiciary committee and more time granted them to report.

A petition from twenty-three property owners residing on South Jackson street that brick cross walks be placed across the street at the intersection of Pleasant, Center, School, Holmes and Rock streets was referred to the highway committee and later to the aldermen of the ward.

The report of Assistant Street Commissioner Ross of sidewalks built by him was referred to the highway committee and more time granted them to report.

The bids for the furnishing the city with lumber and sewer pipe for the ensuing year were opened. Field Bros. were the only bidders for the lumber contract and Schaller & McKee the only ones for the sewer pipe. As there were no other bids the highway committee asked for more time to consider the matter.

The report of the street assessment committee, that the grading of North First street was completed and that there was due Contractor P. W. Ryan \$877.49 of which there is due from the city \$62.64 and \$314.80 from the abutting property was adopted.

The report of the highway committee that a balance of \$122.58 was due Hook & Cummings for cement work was adopted.

A petition from Chief Spencer as president of the Firemen's Relief association asking that \$200 be appropriated by the city in securing cuts for the work was referred to the fire and water committee and more time granted.

Appointments Confirmed — The appointment by the mayor of T. S. Nolan as a member of the board of police and fire commissioners to succeed himself and the appointment of W. P. Mason as weed commissioner were confirmed.

The finance committee reported favorably on a batch of bills which were ordered paid.

Bridge Report — The highway committee reported that they had examined all of the bridges of the city and that the same with the exception of Milwaukee street bridge were in suitable condition. Milwaukee street bridge needed a number of new piles and new planks and blocks to put it in shape. This will be done as soon as possible under the supervision of the highway committee.

The highway committee were instructed to purchase one or two carloads of brick for paving purposes.

Railway Amendments — The ordinance amending the ordinance granting the Beloit, Delavan Lake and Janesville railroad a right to operate their road in Janesville was taken up and given its first and second readings and under a suspension of the rules was given its third reading and passed. The amendment allows them to change their route a little.

\$150 For Parks — A resolution that the city appropriate \$150 for the parks was adopted.

WEATHER FORECAST.  
Partly cloudy tonight; Wednesday probably showers, colder.

WHAT A MACHINE

People who have flattered themselves that the primary law, according to the Stevens bill, was a simple piece of mechanism, will disabuse their minds by reading Senator Whitehead's fifth letter. The provisions of the law, that looked so simple, when analyzed, present a maze of complications, that are bewildering. Twenty thousand committeemen are required to put the machinery in motion. This army of men are expected to work gratuitously. They are supposed to be so inspired with the spirit of reform, that any sort of a sacrifice would be welcomed with pleasure.

The letter deals with nothing but cold facts. There is no shading or bias. The provisions of the contemplated law are simply set forth in detail. It is the kind of information that the people need, and Senator Whitehead is to be congratulated in undertaking the task.

Reform measures are always alluring. The free silver craze, was one of the most attractive, and proved to be one of the most popular measures of recent years. Kansas populism swept over the state like a tidal wave, because it contained so much in the way of theoretical reform. State prohibition captured Iowa for the same reason. Pingreeism demoralized Michigan, and Johnsonism would upset Ohio, if the city of Toledo, with its erratic mayor, was as large as Cincinnati.

Governor La Follette has been accused of being a populist. The title may be a misnomer, and yet it is painfully evident that he is a theoretical reformer. His primary election scheme is as visionary as any that ever disturbed the brain of Bryan.

While a man may be an innocent and honest reformer, when he is favored by office and leadership, he becomes dangerous. There is a large element in society, just beneath the surface, that is filled with discontent and unrest. All it wants is a leader to crystallize it into action. When Debs came into the labor arena, a few years ago, the masses flocked around him, and were willing to follow him anywhere, to get away from imaginary bondage. Sentimental people, who did not belong to the laboring classes, were in sympathy with him. Pingree, at that time mayor of Detroit, led a procession of 40 mayors in a protest to President Cleveland, for enforcing law and order. These men were inspired by the same plea for "God's patient poor" that has become the watchword of the La Follette forces in the present campaign. It is simply another name for class distinction and furnishes another opportunity for stirring up class hatred.

Any man in public life, who will lend himself and his influence to the teaching of such a doctrine, is unfit for the trust and altogether too dangerous to be continued in office. Senator Whitehead's letter, number 5, will convince any unprejudiced mind, that the one and only primary law advanced by the governor, emanated from the brain of a man who is totally unqualified for safe leadership. The people of Wisconsin are not ready to endorse the vagary and they will so express themselves through their representatives when the convention assembles.

AMERICAN BUSINESS METHODS.

The British Consul, at Chicago, Mr. Wyndham, recently sent home a report, that is filled with suggestions regarding American Business Methods. This report has just been made public through the Bureau of Statistics in Washington, and is worthy of comment.

Mr. Wyndham attributes American success largely to the fact that our educational system teaches the boy independence and knowledge of future responsibility, and does not set the profession above business as a means of gaining a living.

He discovers in athletics a helpful means of development and says that it is simply a means to an end, as taught in American schools.

Another cause of success is the keeping of the money, which has been made in business, and the brains which have made the business. In it as long as possible, and great thought is devoted to arrangements whereby after the death of the builder of the business, it shall not fall into the hands of his heirs, unless they are practically fitted to take care of it.

encouraged to discover new methods of carrying on the business which may in any way lessen the cost of production of carrying on business, and specialization is carried on to an extreme point.

He says that American Machine shops, not only have the best machinery, but the men employed work as though they owned the plant, and promotion is open to every toiler.

Many visitors from the United Kingdom blame the men there, because the same results are not obtained from machinery as is done here, but the more the factories are seen the more certain it becomes that it is the incentive to work and the energy of the managers, superintendents, and foremen, and the example set by them that has the wonderful effect on the output. This holds good in every kind of trade and business. In one factory the manager, in six months, doubled the output at an increase of 5 per cent. by rearranging the machinery. A great difficulty of the Chicago system is the difficulty of a man over 45 finding work. There are many men in good positions over that age who will in all probability retain them for some years and retire on a pension, but a new comer of that age has little chance of employment as he cannot expect to learn new ways. A man who is out of work at that age is regarded with suspicion, especially when trade is good, because if he had proved that he was worth his position, which should be good one after many years' service, he would not have been forced out, or if he had, some other firm which had come into contact with him in business would try to secure his services. No man can get on in Chicago who works with one eye on the clock or grudgingly, and them on who is rewarded by promotion has shown himself ready to put his work before his personal wishes and in many cases has offered to help in other departments, when necessary, in this way acquiring a comprehensive knowledge of the work being done.

The report is not only comprehensive, but it is a well deserved compliment to American enterprise and industry. The United States may be in its boyhood, so far as age is concerned, but in the field of accomplishment, it is full fledged, and well on the way to maturity.

The Milwaukee Journal is up in the air. The paper is unable to decide in the light of recent developments, whether La Follette will succeed himself or whether Whitehead will be governor. As there is no show for democracy the Journal will have to be content with a republican governor, and the Gazette will respectfully suggest that his name will be Whitehead.

Careless husbands who are in the habit of spitting on the floor, will do well to heed the warning of the Sheboygan man, who is being sued for divorce on that account. His wife said it was bad enough for him to smoke in the house, but when it came to expectorating, she would not have her rights interfered with.

The seven young men, who assumed the role of Whitecaps, at McFarland the other night, when they undertook to drive a saloon man out of town, are paying liberally for their fun. Five of them have paid a fine of \$85 each, and the other two are held for trial. Temperance sports are not popular this side of Kansas.

The political atmosphere in Dane county is a little disturbed at present. As a health resort, the county has much to recommend it, and the political disturbance on the horizon just now, will disappear before the heated term.

A Chicago Athlete, who has tried the experiment, says that a 45 days' fast will cure any sort of disease to which human flesh is heir to. It is safe to say that if the people generally will adopt his health cure, that the price of beef will regulate itself.

Shipping in the harbor including a number of American vessels are wiped out, and but few survivors are left. When the full particulars are known it will be discovered that volcanoes are dangerous neighbors. It is doubtful if the city is ever rebuilt.

Chickens frequently come home to roost, and their coming is not always occasion for a jubilee.

The man who writes letters often feels like kicking himself for that part of his education.

PRESS COMMENT.

Lodi Enterprise: Why, if the governor did not throw Dahle overboard, does he not raise his might and repudiate the insinuation? He would keep the friendship of many Scandinavian voters if he could prove his hands were clean in this matter.

Stoughton Hub: In considering Mr. Lettsch as a congressional possibility the governor should keep in mind that the young man from Columbia county has not been long enough in the republican harness to get up a good sweat. He was a democrat until a year or two ago.

Marquette Eagle: The Handybook is full of errors, as well as of omissions, and will prove as great a boomerang as was the pamphlet issued in 1898, by the same men, attacking Governor Edward Scofield. Mr. Scofield was triumphantly re-elected, in spite of and partly perhaps, because of the villainous lies

told about him. The LaFollette machine is again doomed to failure.

Green Bay Gazette: Janesville is the latest of Wisconsin cities to take up the question of securing a beet sugar factory, according to the proposition of the Menomonee company. The offer to them, however, is somewhat different from the one submitted to Green Bay. At Janesville, the first year's crop is to go to the Menomonee factory and if the results obtained will justify it a factory will the following year be established at that point. If every proposition made is taken up, by the company will have its hands full building factories in Wisconsin next year.

Fond du Lac Commonwealth: Senator Mooney is to be commended on one step which he has just taken. He has announced that he will not press his suit against the fireman who came to the assistance of the street-car conductor in the recent disgraceful public fight. In which Mooney flourished a knife. The less fuss the Mississippi senator makes about that matter, the better it will be for him.

Racine Journal: The Kress-LaFollette letters as printed in the Sentinel, absorb much attention but the LaFollette men are perverse, and calmly insist it is all right. At the same time there are republicans who view the matter as proving the governor had dropped much of that finer sense of political morality he had been credited with and is of the same clay as other men.

Eau Claire Leader: The publication of the Kress letters has a tendency to weaken the governor in the estimation of the people. Mr. LaFollette stated in his speeches that the Payne-Pfister machine was corrupt. How, now, will he explain his willingness to work in harmony with this corrupt machine, provided he neutralized its opposition and obtained its support?

Eau Claire Leader: The letters of Kress and others that have appeared in the Milwaukee Sentinel seem to substantiate the charge often preferred that a deal was entered into two years ago by which La Follette gained his nomination. The disclosures will have a tendency to make thousands of Republicans in the state, who up to this time believed that Gov. La Follette to be a sincere reformer, to regard him now as a self-seeker for office. The correspondence shows that he was willing to throw political principle to the wind provided he could thereby promote his own interests and ambitions. Mr. La Follette seems, according to this correspondence, to be willing to coalesce with any party at a moment's notice, provided the end was the Madison White House.

## SEVENTEEN ACRES ARE NOW SECURED

LAND IN VICINITY OF CITY SET ASIDE FOR BEET-GROWING.

Mr. Postel and David Clark hope to be able to secure Twenty-Five Acres Before Night—Sale of Crops Secured to Growers by The Factory.

Acting on the plan mapped out by the Business Men's club at its meeting held last week, Mr. A. F. Postel, chief agriculturalist of the Wisconsin Sugar Co., of Menominee Falls, Wis., came here last Friday to see what could be done among the farmers as regards the putting in of an experimental crop of sugar beets.

Mr. Postel in company with David Clark, of this city, rode through the country adjoining the city to see if they could secure the necessary acreage to make the experiment a success. They were out part of Friday, Saturday and Monday, in all about two days and secured about seventeen acres. They are still on the hunt in the vicinity of Hanover and expect to have twenty-five acres secured by tonight.

**Have Signed Contracts**  
The people interested in growing this experimental crop of sugar beets have signed contracts to grow from a quarter of an acre to two acres. The crop when ready for the factory will be shipped to Menominee Falls.

The growers are purchasing their own seed which costs fifteen cents a pound. It requires about eighteen pounds to the acre and the cost of the seed will be deducted from the returns of the crop when it is delivered.

**Planter Sent**  
A two horse planter has been sent here from the factory at Menominee Falls and will be used to sow the seed on the land secured for the purpose. Those who have signed contracts to today are: George M. Decker, half an acre; A. M. Church, one quarter; J. M. Bostwick, two acres; John Cullon, one half; S. H. Joiner, one-half; Joel Proctor, one-half; Thomas Murray, one; George Cory, one; E. Birklund, one; A. J. Birkness, one; H. Glimes, one; Chas. E. Johnson, one; Henry Woodstock, one-half; R. Schlesinger, one; Miles Rice, one; Josias Auld, one; B. W. Little, one; George Sutherland, two.

**Sugar Company's Contract**  
In the contract furnished by the Sugar company they agree to pay \$4.50 per ton net weight for the beets and twenty-five cents per ton extra for all beets delivered in November and agree to receive all beets before December 1.

**Conditions**  
In case their factory should be destroyed by fire or other reason before the beets are delivered, the company has the option of paying the grower \$5 per ton for all beets he has under cultivation and allow the grower to retain the crop.

Mr. Postel thinks that there is no question but that the sugar beets can be raised successfully in this vicinity and expects the experimental crop to demonstrate to the farmers what can be done in this line. On the success of this crop depends largely the question of building a factory in this city next season.

## A RECEPTION FOR CAPTAIN TAYLOR

Salvation Army Leader and His Wife Are Transferred to Danesville, N. Y.—Reception Tonight.

Captain L. D. Taylor and his wife, leaders in the Salvation army movement in this city, have been transferred to Danesville, New York and will leave for their new home soon. This evening at eight o'clock at the Y. M. C. A. building a rousing reception will be accorded this genial and well-deserving couple.

Several of the local divines will take part in the program as well as Rev. Starkweather, of Milton Junction. Since coming to this city five months ago Captain Taylor and his wife have converted sixty-eight souls to the altar and have taken into the Army fourteen new members. Their work here will be carried on by new officers soon to be appointed. Their departure from the Bower City will be regretted by many warm friends whom they have made by their devoted work and pleasant ways.

### Missionary Rally

Thursday afternoon and evening a grand missionary meeting will be held at the First M. E. church. About fifteen churches of Rock and Jefferson counties will send delegates. Rev. Dr. Oldham, of Chicago, a fine advocate of missions, will be present. In the afternoon he will conduct the meeting as an institute on missions and every one who desires will be accorded the privilege of taking part or presenting any question. The ladies of the church Afi society will serve tea at 5:30 for the delegates and members of Court St. and First churches, and at 7:30 Dr. Oldham will deliver an address on Missions. His descriptive powers are fine; his language chaste and it will well repay anyone to listen to this eloquent and earnest pleader for the extension of Christ's kingdom.

### EFFECTIVE ADVERTISING

That a seasonable article advertised in the correct way at a catchy price will invariably bring a big result was demonstrated in the sale of 300 American Beauty Rose Bushes spoken of in Bort, Bailey & Co's. advertisement in last evening's issue of the Gazette. The entire lot were disposed of early this morning and calls have come for them all day. Mr. Greenman of the firm, said that he had telegraphed for another supply and if they had secured 1,000 of these bushes they would have been sold quickly. The only announcement of the sale was made in the Gazette of last evening.

**Celebrates Birthday**  
Monday Fred C. Stillson reached the fiftieth milestone along life's ever-varying pathway and was very happily surprised by a number of his friends at his home on Sinclair street in the evening.

Mr. Stillson was called home about 8 o'clock in the evening only to find about twenty-five couples in possession.

After the usual congratulations the guests were invited to the dining room where a most elaborate lunch was served. Later the meeting moments were beguiled with progressive chess.

During the latter part of the evening Smith's orchestra rendered some of their finest selections, both vocal and instrumental.

Mrs. Stillson was assisted in entertaining the guests by Mrs. J. N. Stillson and daughter of Chicago, and Mrs. Charles Daly.

As a token of esteem Mr. Stillson was presented with an elegant leather chair by his local friends and his brother in Chicago presented him with a cut glass punch bowl and a dozen cups to match.

## GRACEFUL GIRLS ENTERTAIN MANY

Mrs. Day's Class Performs to a Large Audience at The Myers Last Evening.

The large audience who braved the storm, last evening and attended the physical culture entertainment at the Myers Grand were amply repaid for their bravery. The entertainment was one of the finest ever given in Janesville and clearly demonstrated what a competent teacher and a class of apt pupils can do. Several elocutionary numbers added variety and interest to the excellent program, while the musical parts were good.

The program opened with free hand movements in floor exercises by about twenty members of the physical culture club. The various movements were given with a precision and grace of movement, indicative of careful training. This was followed by a ring drill by the same class which was well done.

Miss Myrtle Maltress gave an elocutionary number in "The Race at Devil's Elbow." In a very spirited and graceful manner. In expression and voice Miss Maltress was very good.

After an excellent drill with dumb bells by the class the orchestra gave a fine selection, and they were followed by the class in the pole drill, a very pretty exercise in physical culture.

The second part was opened with a declamation by Eurette Kimball, entitled "The Heart of Old Hickory." This number was given with Miss Kimball's usually artistic manner and was fully up to the high standard of her work.

George V. Gray gave a very good clarinet solo and was followed by the class in the Eastern Temple ceremonies. They were attired in Greek costume and went through the various movements in a graceful and artistic manner.

Mrs. J. Ray Cole, of Whitewater, gave a humorous selection entitled, "Sally Ann's Experience." Mrs. Cole is a very pleasing speaker.

The class next gave a pantomime from Longfellow's "The Famine." As Mrs. Day read from the wings the class portrayed the expressions in well-ventilated features. The class was clad in Greek costumes and the effect was heightened by colored lights.

After a clarinet duet by Messrs. Gray and Knott the class gave some excellent studies in expressive action. In this number the class indicated very close study and good expression.

The entire work of the class gave ample evidence of the ability and well directed efforts of the teacher, Mrs. Janet B. Day.

During the various exercises the accomplishments were played by Miss Leona Stevens.

## MUNICIPAL COURT NOTES

Gaston and Powers Sentenced to Terms of Imprisonment

Ted Gaston and James Powers, the two Beloit young men arrested last Friday night by Marshal George M. Appleby, of Beloit, for the burglary of Wm. Hamlin's jewelry store, in Beloit on the night of May 4, came up before Judge Fifield this morning on petition.

District Attorney Jackson filed an information against them charging them with the robbery to which they entered a plea of guilty. This being Gaston's first offense and on account of his age Judge Fifield sentenced him to a term of two years in the State Reformatory at Green Bay. It was discovered on looking up the court record that Powers had been up before the court in 1892 on the charge of burning a school house in the town of Rock and that on account of his youth at that time sentence was suspended.

**Goes to Waupun**  
The statutes prohibit any but the first offense prisoners from being sent to Green Bay and Judge Fifield was in doubt of his right to send Powers to the reformatory even if sentence was suspended, because he had plead guilty to the charge. He therefore sentenced him to a term of two years in Waupun with a recommendation to the board of control that he be transferred to the reformatory.

**Lectured by Judge Fifield**  
The Judge gave the boys a little good advice before pronouncing sentence, which if followed by them will keep them out of prison when they are released.

**Other Cases**  
Frank Corwin paid \$3.20 for being drunk and disorderly as did John McNally. John Dooley paid \$2.20 for his fun. Thomas Macklin, arrested on the same charge, was allowed to go on the condition that he went out into his farm at once and stayed there. He has the option of staying there or going to jail the first time he comes to town.

Judge Sale of the county court, is engaged today in the hearing of claims against the estate of Bridget Sweeney, deceased.

Judgment was entered today in the circuit court in the case of Lawrence Cronin et al. vs The Janesville & South-eastern railroad. The plaintiff was awarded damages and interest amounting to \$5.20. As this judgment is much less than the amount awarded by the commissioners, the costs of the action are held against the plaintiffs.

Marriage licenses were issued today to Charley F. Willie and Maud Oakley, both of Janesville; Edwin A. Babcock and Mattie Cartwright, of Milton; Luther David Brode, of Los Angeles, Cal.; and Jessie Echlin, of Janesville; Otto Sabien and Emma Kendall, both of Janesville.

Thomas Heffernon and Miss Elizabeth Viney, were married at St. Patrick's church, in Whitewater, this morning. The couple were to have been married at St. Patrick's church in this city tomorrow, but stole a march on their friends and went to Whitewater.

## THREE THOUSAND VISITORS COMING

Mystic Workers of The World Picnic Will Draw Tremendous Crowd to The Bower City.

Three thousand visitors are expected to Janesville on Saturday, June 14th, to attend the annual picnic of the Mystic Workers of the World. The program is a most excellent one and includes a speech by Attorney General Hicks.

The main exercises will be held in the Court House Park, and will include speeches and games. At Athletic Park in the afternoon, the base ball teams from Beloit College and the University of Wisconsin contest for honors.

Excursion rates will be granted on both railroads a large delegation will come from all portions of northern Wisconsin. The local committee consisting of Amos Rehberg, Orville Morse, John Boyce, C. N. Vankirk and C. W. Wisch, will soon start out to solicit funds and should be given a most cordial welcome in their work.

**CITY NEWS IN BRIEF**

**Elks Meet:** Regular meeting of the Elks this evening. There will be degree work and all members are requested to be present.

**White Robin:** A rare curiosity in the form of a white robin is to be seen daily around the trees in the Court House park. The bird is quite tame and is certainly a freak of nature.

**M. W. A. Meeting:** There will be a special meeting of the Florence Camp, M. W. A., on Thursday evening at West Side Odd Fellows' hall. Business of importance and all members are requested to be present.

**Will Go to Peoria:** At a meeting of the Concordia society held last evening it was decided that the society would join with the Madison society in securing a special car over the St. Paul road to Chicago, when they leave for the Sanger Fest at Peoria, Ill., June 19-20-21. All the Wisconsin Sanger Bands will gather at Chicago and go over the Alton to Peoria on a special train.

**Gideon Superintendent:** Chas. H. Palmer, of Chicago, National Superintendent of the Order of Gideons was in this city on Monday afternoon in conference with J. H. Nicholson, secretary of the National association, in regard to the work of the order. This is one of the most flourishing social orders in the country and now has lodges in thirty-five states. The order is doing a great work among the commercial travelers of this country and is a strong power for good. This morning

## A FITTING TRIBUTE

A Citizen of Janesville Pays  
a Well-Earned Tribute.

The following public statement of a respected citizen, adds one more emphatic endorsement of merit to the scores that have appeared before:

Mr. E. Dillenbeck, of 126 Milton Ave. retired farmer, says: "My wife was troubled with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief, and procuring them at the Peoples drug store, I had her use the remedy. It did for her all that could be expected. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

For sale by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

Many of Our Boys and Girls Are  
Suffering This Month From  
The After Effects of  
Winter Grippe.

Wise Parents Provide

## PAINE'S CELERY COMPOUND

For Their Loved Ones.

The Wondrous Medicine Quickly  
Expels all Germ Poisons from  
the Blood and Fortifies the  
Weak and run down  
System

A busy city physician, enjoying a large annual income, remarked the other day that a host of young people boys and girls, were suffering this month from the after effects of winter grippe.

Dear parents, have any of your children suffered from an attack of the cruel monster grippe, during the past winter months? Are your boys and girls irritable, feverish, pale or weak? Have they cold and clammy limbs? Is the blood watery, impure, or sluggish? Is the appetite poor and digestion weak? As the rose tint of health faded from the cheeks? If any of these conditions are noted, be assured the dregs of deadly grippe are implanted in the system.

If your children are not blithe, some, happy, robust, and strong in May, their conditions call for prompt action on your part. Their future—health and physical happiness or suffering and early death—is in your hands, dear parents, and you alone are responsible to Heaven and the community of which you form a part.

When winter grippe has implanted seeds of virulent disease, the first and most important work is to expel from the blood every trace of poison. This is always successfully accomplished by the use of Paine's Celery Compound. This marvelous medicine after purifying the foul stagnant blood, acts as a nerve food. It builds up the nervous system and nourishes all the bodily tissues.

Boys and girls with such a start in life as they always receive from Paine's Celery Compound, grow up as sturdy forest oaks, they revel in strength and true life; they are fair to behold; they make the men and women most needed by our country. Do your part this month, dear parents, with promptness and honesty, and rest assured Paine's Celery Compound will not fail in its grand work of health building.

## MINERS OBEY STRIKE ORDER

Men and Boys to the Number of 150,000 Refrain from Work.

ALL QUIET AND LAW ABIDING

General Belief That If It Is Decided to Remain Out the Struggle Will Be the Longest and Most Bitter Ever Known.

Scranton, Pa., May 13.—The tie-up in the anthracite mines throughout this region which was ordered by the officers of the United Mine Workers' union is practically complete. Approximately 150,000 men and boys have been idle since early Monday morning, and it is now predicted that a coal famine will speedily result unless the decision of the Hazelton convention tomorrow is favorable to the operators.

The announcement came to headquarters from an official source that the Delaware, Lackawanna and Western company had stopped selling coal. In fact, it is asserted, that it has not shipped a car load from its mines since Saturday, when it became evident that trouble was impending. The company has ordered that no coal be sold except by the authority of the superintendent of the coal department.

The other big companies in this section have taken similar action, and it is freely declared that such steps can result in nothing short of a hard coal famine.

President John Mitchell expressed himself as being very well satisfied with the manner in which the men had obeyed the order. He said: "In every instance the order to suspend work has been obeyed to the letter, and it is particularly gratifying."

The mining towns in this section are unusually quiet. In fact, it is even greater than a Sabbath stillness. The quietude which reigns throughout stands in marked contrast to the situation of two years ago, when marches and other forms of intimidation were resorted to to compel the men to lay down their tools.

The only report of disturbance during the day came from the vicinity of Hazelton, where a dozen or more foreigners, ignorant of the meaning of the suspension order, attempted to get through the line of miners' pickets stationed near the breaker.

The only men who are known to have reported for work in any numbers are the engineers, firemen and pump runners, who were directed by the general order of the union to resume their duties as usual that the properties of the companies might not be harmed.

An official of the Delaware, Lackawanna and Western railroad company declared positively that that corporation had no intention of resorting to a lock-out. "We do not intend to irritate the men," he said, "and the other companies are of the same mind. Nothing will be done until after Wednesday. The situation is now in the hands of the miners. After the convention it will be in our hands."

"We fully appreciate the fact that President Mitchell does not court a strike. Neither do the companies, despite what has been said to the contrary. While we do not want a fight, we will give the men all the fight they desire if they decide that there is to be one."

Predictions are freely made that if it is decided to continue the strike the struggle will be longer and more bitter than any in the history of the coal mines.

The coal companies have already made extensive preparations for a long siege. Coal train crews, telegraph operators, switchmen, carpenters, machinists and other employees numbering several thousand in all, and not identified with the union, have been laid off until further notice. In many instances the mules have been brought to the surface.

CORPORATION WILL RUN FARM

Diamond Match Company to Raise Oats and Peas in Michigan.

Ontonagon, Mich., May 13.—The Diamond Match company, which owns a considerable acreage in this vicinity, is to embark in agriculture this season, instructions having been received to prepare 300 acres for cultivation. The principal crops will be oats and peas. Of the latter 100 bushels will be sown, and while the crop will be in the nature of an experiment, it is considered that it will prove a good investment.

## Uncle Sam's Mail Service

requires physical and mental ability of a high degree to withstand its hard labors. The high tension to which the nervous system is constantly subjected, has a depressing effect, and soon headache, backache, neuralgia, rheumatism, sciatica, etc., develop in severe form. Such was the case of Mail Carrier S. F. Sweinhart, of Huntsville, Ala., he says:

"An attack of pneumonia left me with muscular rheumatism, headache, and pains that seemed to be all over me. I was scarcely able to move for about a month when I decided to give

Dr. Miles' Pain Pills and Nerve Plasters a trial. In three days I was again on my route and in two weeks I was free from pain and gaining in flesh and strength."

# Get Strong.

Because we do not want any of our neighbors to drag out a weary, tired and weak existence, we say to all—try Vinol on our guarantee. It is the great health and strength restorer, and we know it will help you.

## Vinol Makes you Strong and Vigorous.

"Vinol did me a world of good and I probably owe my life to its wonderful powers. My position as gatherer in a window glass factory requires a great deal of strength and skill. Before taking Vinol I had tried almost everything else but kept losing strength until I was unable to work and had become thoroughly discouraged. I was induced to try Vinol and the results were simply remarkable, for I am now as strong and vigorous as I ever was and am working full time each day, thanks to Vinol."—JOHN LASHLEY, 503 Windsor Street, Muncie, Ind.

## Vinol Cures that Run-Down and Tired Feeling.

"I take the greatest pleasure in recommending to the ladies such a fine tonic and strengthening medicine as Vinol. I was not ill enough to call a physician, but just felt run down and always tired. I had no appetite and didn't seem to digest properly what I ate. I have been taking Vinol for about two weeks and feel strong and well. I thoroughly enjoy my meals, and my domestic and social duties which used to fatigue me so are now a source of pleasure. I am a sincere friend of Vinol."—Mrs. G. W. HENRY, 205 First Avenue, Joliet, Ill.

Please call and let us tell you more about Vinol.

## Mull's Grape Tonic

A Perfect LAXATIVE

most quickly effective thing on earth for nature's "house cleaning" time. In the spring it relieves the clogged system of the impurities which gather from a winters inaction, poisoning the blood and dragging down the vitality. Its wonderful curative and building powers make it an invaluable remedy for invalids and for all wasting diseases. It is the standard remedy for stomach, liver and kidney troubles.

It is simply the life-giving juice of the grape, combined with fruits and herbs, nature's own curative agents.

## AMENDED STREET RAILWAY GRANT

Continued From Page 2.

private \$150 for beautifying the parks with flowers and plants was adopted.

The committee on printing reported that the bids for doing the city printing were above the legal rate and were all rejected. The clerk was instructed to advertise for new bids to be in by May 20.

**Viaduct Over Tracks**  
The ordinance relating to the construction of the viaduct over the C. & N. W. R. tracks at Galena street was given its first and second readings and under a suspension of the rules given its third reading and passed.

The Janesville Pearl Button company were given permission to use portions of certain streets to move a building.

A brick cross walk was ordered on Pleasant street on the west side of South Jackson street.

**Hospital's Poor Shape**  
Dr. Edden, city health officer, addressed the council on the condition of the detention hospital and its furnishings. He declared that it was unfit to take a patient into and that the furnishings were no good. The matter was left in the hands of Dr. Edden and Alderman Gilkey to do what seemed best.

**Care of Poor**  
Alderman Gilkey addressed the council on the matter of caring for the city's poor. The city now pays \$50 from each saloon license to the county for the care of the city's poor. The money for the care of the city's poor is handled by the poor commissioner and he understood that the poor here in town were not half looked after. He did not believe that all the money paid by the city to the county was used for the care of the city's poor and that there was never any accounting to show the city how the money had been used. He did not see why the city should take care of the county's poor. The city attorney was instructed to confer with the members of the legislature with a view of having the law repealed and allowing the city to care for its own poor.

Victor P. Richardson was granted permission to use a portion of N. Main street during the erection of a building under the usual restrictions.

A number of brick and plank crossings were ordered by the different aldermen in different parts of the city.

An order for an electric light at the corner of Oak and Franklin streets was referred to the lighting committee. Mayor Richardson was instructed by the council to attend the meeting of the League of Municipalities at Grand Rapids, Wis., June 4 and 5.

The condition of East Milwaukee street between the bridge and Main street was taken up and the highway committee instructed to take the necessary steps to pave the street if the property owners did not.

## Digests what you Eat

## Dyspepsia Cure

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is **KODOL DYSPEPSIA CURE**, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

## BAD BOY THROWS STONES AT CARS

Police Looking for Youth Who Hurling Rocks at a St. Paul Train Monday.

The police are looking for a boy who yesterday morning threw a stone through a window of one of the coaches of the C. M. & St. P. passenger train from Milwaukee due here at 10:15 a. m.

The boy throwing the stone was concealed behind some cars near the Hanson factory. When the train came rushing by he let drive with a rock which crashed through a window. The rock and some of the window glass cut the face of one of the passengers quite badly.

As soon as the train reached the station Chief Hogan was notified of what had been done and at once made a trip up into the neighborhood to see if he could discover the miscreant, but could not get any trace of anyone that knew anything about the matter. He later secured some information that may lead to the arrest of the guilty party.

Throwing a stone at a swiftly running passenger train filled with people is a serious offense and the railroad company are anxious to capture the offender and make an example of him.

### NEW AND ROOSEVELT TO HUNT

Will Seek Game in the Big Horn Country in Wyoming. Indianapolis, May 13.—Harry S. New, member of the republican national committee for Indiana, and President Roosevelt are making arrangements for a hunting excursion in the Big Horn country in Wyoming. It is understood that they will make the western trip soon after congress adjourns. If the president finds that he can leave Washington.

Has Rare Disease. New York, May 13.—In Mrs. Catherine Blossini, an Italian, the doctors at Bellevue Hospital believe they have a patient who is suffering from the rare malady known as Addison's disease. The disease is supposed to be a kidney affection and results in the gradual darkening of the color of the skin. The malady is regarded as incurable.

Steamboat Burns. Yankton, S. D., May 13.—The steamboat South Dakota, J. Lach captain and owner, was burned at the first landing north of Greenwood, Neb., while on a trip up the Missouri. The loss was \$22,000 on the boat and \$10,000 on the cargo of general merchandise. There was no insurance. The passengers and crew escaped.

Race War at Bragg, I. T. Muskogee, I. T., May 13.—A race war is on at Bragg, twenty miles east of Muskogee. Five negroes and one white man have been shot and one has been stabbed. Seventy-five negroes attempted to wipe out the white settlement of fifteen families near Bragg, which is one of the worst districts in Indian Territory.

Oppose Corn Tax. London, May 13.—About 10,000 people took part in an anti-corn-law demonstration which has just been held in Hyde Park. Banners were borne with inscriptions such as "No protection!" and "Down with the bread tax!" A resolution denouncing the government for imposing the tax was carried with tremendous enthusiasm.

Louisiana Lawmakers Meet. Baton Rouge, La., May 13.—The biennial session of the Louisiana legislature has begun. Among the matters to come before the body are a reorganization of the judiciary, the reapportionment of the state for one additional congressman, and legislation affecting the insurance situation in Louisiana, and trusts.

## THE WIDE AWAKE,

JANESVILLE,

WISCONSIN

## You, Sir, You;

Where are you going to buy that new carriage? Upon your decision, depends a great deal of your personal comfort and peace of mind. A mistake in vehicle quality means misery and bad temper. Send away to the mail order concern in Chicago or elsewhere, if you must, and make your selection from pictures and trumped-up descriptions; but don't ignore the fact that we have right at your door a most reliable line of vehicles (not pictures) to show you, and which we are selling as low as anyone can sell equally as good work. Our vehicles are warranted and backed by us. Our number 100 Stanhope is one of the many styles we have to show. Call and see us. Also have second hand buggies, phaetons, and surreys. All repaired in good shape and cheap.
